IPA Electronic Cleaning Solvent

IPA is an internationally approved solvent which cleans to standards required by the major electronics manufacturers. Will thoroughly clean all electronic equipment and is safe to use on most plastics.

- Non-halogenated cleaning solvent; will not attack the ozone layer
- Fast evaporation rate; quick and efficient cleaning and degreasing
- Dries without leaving any residue; leaves a clean, dry surface in one cleaning step
- Cost effective cleaning solvent

Directions for Use

Suitable for electronic equipment and PCB cleaning. Safe on most plastics (some painted surfaces should be tested before use) and components in electronic and video equipment, computers, optical and precision instruments, cameras, etc. Product contains flammable solvent so do not spray onto live electrical equipment or other sources of ignition. Immerse surface to be cleaned or spray onto surface to excess and allow to evaporate. A brush or foam tipped bud may be used to remove any stubborn deposits.
