- MTBF > of 590.000 hours
- Sensors: paper end, black mark, ticket presence, printing unit opening and paper low on roll holder
- Anti Jamming System
- Illuminated paper bezel
- Multiposition paper roll
- Operating temperatures -20 +70°C±10%

WIRELESS PRINTING

DONGLE

The Dongle is designed to make all Custom printers, equipped with USB or Ethernet port, connectable according to Wi-Fi IEEE 802.11 b/g/n standard or with the Bluetooth® wireless technology.

The reduced footprint together with the easy installation and configuration makes it ideal to be used with Custom printers in modern wireless applications always more requested by mobility devices such as Tablet and/or Smartphone.

FOR IPAD & IPHONE

xPrintServer is an ultra compact box for iOS wi-fi connection that enables wireless printing for iOS devices using their native print menu. It eliminates the need to print through apps, to install softwares, or to email ourselves documents for printing.
