GSM06E series

6W AC-DC Reliable Green Medical Adaptor

- ullet 2 pole EURO plug , Class ${\mathbb I}$ power unit
- Medical safety approved (2 x MOPP) accroding to BS EN/EN60601-1
- · Extremely low leakage current
- · No load power consumption< 0.3W
- Energy efficiency Level V
- · Protections: Short circuit / Overload / Over voltage
- Fully enclosed plastic case
- · 3 years warranty

Applications

- Blood glucose meter
- · Blood pressure meter
- Nebulizer
- Inhaler
- · Portable medical device

Description

GSM06E is a highly reliable, 6W wall-mounted style single-output green medical adaptor series. This product is equipped with a 2-pin (no FG) standard European power plug, adopting the input range from 85VAC to 264VAC. The entire series supplies different output voltages between 5VDC and 24VDC that can satisfy the demands for various kinds of miniature medical devices. The circuitry design meets the international medical standards (2 x MOPP), having an ultra low leakage current (<50µA), fitting the medical devices in direct electrical contact with the patients.

With the efficiency up to 82% and the extreme low no-load power consumption below 0.3W. GSM06E is compliant with EU ErP. The supreme feature allows the adaptor to save the energy when it is either under the operating mode or the standby mode. The entire series utilizes the 94V-0 flame retardant plastic case, providing the double insulation that effectively prevents electrical shock. GSM06E is approved with the international medical safety certificates.
