Features

Regulated

Converter

- Household, medically and ITE certified
- Class II installations (without FG)

• IP68 waterproof encapsulation

- Long life components, rugged module
- Energy Efficiency Level VI
- Cable and connector modifications on request

Description

The RACM30-ER/W series comprises reliable and highly efficient power conversion modules in a potted IP68 certified, waterproof encapsulation to fit into flush mount wall installations. All versions are covered by multiple certifications for household, medical and ITE safety standards as well. With a certified operation up to 5000m altitude and an ambient temperature range from -20°C up to +70°C, the compact modules are designed to power sanitary, healthcare, smart building, automation, and household applications. Since these modules do not require any external components, they are ready to connect and forget.

Selection Guide				
Part Number	Input Voltage Range [VAC]	Output Voltage ⁽¹⁾ [VDC]	Output Current [A]	Efficiency typ. ⁽³⁾ [%]
RACM30-12SER (2)	90-264	12	2.5	88
RACM30-24SER ⁽²⁾	90-264	24	1.25	89.5

Notes:

Note1: Other output voltages on request

Note2: Efficiency is tested at nominal input (115/230VAC) and full load at +25°C ambient
